PREFACE

At the request of the Vice President for University Relations, the attached set of historical charts were prepared on undergraduates and graduate-professional educational costs, since 1900. The general interest of the University in such historical data suggested to us the wider dissemination of the information. The detailed work was done by Mr. William J. Dillon, Associate Director of the Office of Institutional Studies.

UNIVERSITY OF SAN FRANCISCO: HISTORY OF TUITION CHARGES

The history of tuition charges at the University of San Francisco as listed in the University catalogs since 1900 can be stated in various ways.

In each of the catalogs reviewed, a tuition amount is quoted but in addition, various fees have been added so that the amount charged to the students is in excess of the amount of tuition quoted.

For a certain number of years a flat amount per semester was charged for tuition plus the various fees. In 1961 the change was made to a charge per unit for all courses, including most of the fees.

In the years in which ROTC was obligatory for all freshman and sophomore students, the Military Science fee was included because it affected most of the students.

The following charts show the years in which the various fees became part of the total yearly charges.

UNIVERSITY OF SAN FRANCISCO: SURVEY OF STUDENT FEES 1900 - 1972

From 1900 to 1912, no separate fees were listed in the catalogs of the University of San Francisco other than laboratory fees attached to particular science courses.

Student Fee

In 1913 a student fee of $3.00 per semester was added to the tuition charges. This fee was distributed to the library, student activities and athletics.

This was reduced to $1.00 per semester from 1920 to 1924. In 1925 it was raised to $5.00 per year and in 1927, to $5.00 per semester.

In 1959, it was included in the total student fees.

Student Health Fee

In 1937, a student health fee of $1.50 per semester was added to the student charges. In 1946, this was raised to $2.00 per semester. In 1958, it was raised to $5.00 per semester and in 1959, included in the total student fees.

Library Fee

A library fee, $2.50 per semester was added to the student fees in 1940. This was raised to $10.00 per semester in 1946; to $15.00 in 1950 and continued at this figure until its incorporation into the general student fees in 1959.

Year Book Fee

In 1958, 1959, and 1960, a charge of $5.00 was added to the student fees for the year book. This was charged once in each year to each full-time student.

Military Science Fee

The Reserve Officers Training Corps was inaugurated on the campus in 1938 and a semester fee of $5.00 was imposed on all students in the ROTC program. Military Science was obligatory for all physically fit students in freshman and sophomore years and the fee was also collected from the juniors and seniors who continued in the program. Because it affected such a large part of the student body in the years in which the program was compulsary, it is included in the total cost per year. The program became voluntary in 1968 and the enrollment in military science dropped appreciably.

Laboratory Fees

Laboratory fees have always been charged at the University. During most of the time, they were attached to certain laboratory courses and ranged anywhere from $5.00 to $25.00 per course.

In 1961 when total charges were figured on a per unit basis, the rule for laboratory fees was $10.00 for one or more laboratory course taken. In 1971 the fee was changed to $10.00 per laboratory course.

Graduation Fee

The graduation fee was not included in the annual charges. The increases are shown below:

1900 - 1924:	$10.00
1925 - 1931:	12.50
1932 - 1943:	13.50

1946 - 1952:	15.00
1953 - 1970:	20.00
1971 - 1972:	25.00
